EDUCATION

2018-2022

B.S. COMPUTER SCIENCE, UNIVERSITY OF ST. THOMAS (MN)

GPA 3.52

PROJECTS

CLASS SCHEDULING SYSTEM

Worked as part of team to create a desktop application that allowed a user to create objects such as rooms, professors, and courses. These objects were then used in a scheduling algorithm to determine the three best possible schedules given the constraints courses, rooms, and professors, as well as the preferences of individuals professors.

EXPERIENCE

SEPTEMBER 2018 -
